# PRESIDENT'S MESSAGE

## HELLO FELLOW BROTHERS

Here we are in the middle of February and winter has been pretty good so far, lets hope for the early spring.

I hope everyone enjoyed the holiday season and is looking forward to the upcoming year. The year started with a post holiday beer and wing social at St. Louis Bar and Grill on Yonge St. There was 14 people there and everyone enjoyed them selves. We are looking to have another one but not until April or May.

On a sad note for those who were unaware on January 23 former board member and Mr. Spearhead 2017 Kevin John MacDonald passed away at age 49, there was a celebration of life held on February 8 at the 519 Community Centre which was well attended by his friends. He will be missed by all.

We are now less than a month away from our 50th anniversary March 13-15 and it is becoming one of the most talked about event we have ever done.

A huge thank you to John and Ron for working tireless to put it together and to Ross for pounding the pavements to try to get sponsorship.

If you have not put in your application do so now and let your friends or past members know to get theirs in.

It all kicks off on the Friday night at 6pm for a meet and greet at Woody's/

Sailor bar. Registration will be on the Friday and also on the Saturday at Pegasus from noon-3pm. For those who want to get a shine on their boots we will have a bootblack on the Friday night and on the Saturday afternoon.

Remember that the pre dinner cocktail is from 5-7 at Fantasy Farm, there where be a shuttle bus running back and forth between Church Street and Fantasy Farm starting at 4:30.

If anyone would like to volunteer a couple hours over the weekend contact our membership director. Also please check out our archive display which will be set up all weekend at the 519 Community Centre in the glass room and take a stroll down memory lane.

That weekend will also be the kickoff to our weeklong Easter Food Drive which will end on March 22.

At our OGM it was decided to do our 50th anniversary boat cruise on Friday July 3 to hopefully get some Americans to join us. Stay tune for more information on it.

I cannot wait to see you all in March for our anniversary, until then stay safe.

In Brotherhood  
Robert Jeyes  
President

## SPEARHEAD CHARITY OF CHOICE SELECTION

At the January OGM, we had a presentation from PWA to be considered for our Charity of Choice for 2020. The board also had interest from 2 other organizations that unfortunately due to scheduling conflicts were not able to send a representative to the OGM but we felt still warranted consideration from the membership

The prevalence of poverty among those living with HIV/AIDS is staggering: an estimated 60% of people living with HIV/AIDS have an annual income under \$20,000 with 45% living on less than \$12,000 a year (Canadian AIDS Society, Force for Change). Many simply cannot afford to eat the proper food their bodies need. When hunger and malnutrition occur a great preventative opportunity is lost; malnutrition increases the risk of AIDS-related illnesses. A person can stay healthy so long as they can afford to eat properly.

The Toronto People With AIDS Foundation's Food Program components form a food security model; both are emergency based food services with the goal to promote the health, dignity and independence of all people living with HIV/AIDS in Toronto by increasing access to affordable, nutritious and culturally appropriate foods.

**WE OFFER THE ONLY FOOD BANK AND MEAL DELIVERY PROGRAM TO EXCLUSIVELY SERVE PEOPLE LIVING WITH HIV/AIDS IN TORONTO.**

### **ESSENTIALS MARKET**

- ◆ While gay men continue to be our largest client population, people living with HIV/AIDS from countries where HIV is endemic, including women, comprise our fastest growing client population.
- ◆ Immigrants, refugees and non-status people now make up 40% of the people who access our food bank.
- ◆ Two thirds of the people we serve are single and 25% of people in need of assistance for food security are female and mothers of small children.
- ◆ The program also has 25 dedicated volunteers who donate several hundred hours of their time each month to the program.
- ◆ The food bank is open every Wednesday and Thursday from 12pm – 7pm. To enhance accessibility, emergency services are available any time during PWA's office hours.

### **FOOD FOR LIFE**

- ◆ Food For Life program helps alleviate the devastating effect of this reality by providing nutritious meals.
- ◆ The mission is to enhance the health and well-

being of people living with HIV/AIDS who cannot shop and prepare their own meals.

- ◆ Long-term survivors of HIV are the largest group of people served by Food For Life.
- ◆ Volunteers, most of who are HIV positive, deliver Food For Life meals to those who require home delivery, offering social contact with someone who understands what they are going through.
- ◆ Our Food for Life Coordinator regularly meets and talks with participants to monitor their health, progress and satisfaction

### **IMPACT**

PWA's success of its community involvement is the strong partnerships with organizations who give of their time and fundraising efforts to enable PWA to continue with its programs and services. Throughout the years we have been blessed with the support and generosity of Spearhead who continue to make PWA a large part of their community outreach. In addition to the essential funds raised, it's important to acknowledge the impact that Spearhead has had on the community. Living with HIV/AIDS often results in isolation and losing your connection to community. The support network that some find through community impacts overall health and well-being in a profound manner. Many of our clients choose to volunteer with PWA and/or join community groups like Spearhead that will help them to feel connected, less alone and able to give back.

### **MISSION STATEMENT**

We engage people living with HIV/AIDS in enhancing their health and well-being through practical and therapeutic support services and broader social change, and we inspire them to live into their dreams and discoveries.

### **OUR VISION**

We live in affirming, sustaining communities where we find inspiration and support for our dreams, health, well-being and meaningful contributions.

The  
**Teresa  
Group**

Thank you to all the members of Spearhead for your incredible support of The Teresa Group this holiday season. Thanks to you, we were able to make sure that over 300 kids did not go without over the holidays.

We hope that you will consider us as your charity of choice for 2020. Below, I have included a story written by one of our youth about her experience growing up with The Teresa Group having her back.

Thank you for your consideration and all of the incredible work you do in the community!

### **Part of my life - Abigail**

I don't remember the first time I came to The Teresa Group, and I don't know if I can nail down exactly when it became such an important part of my life, but I know it has always been there.

My mom and I came to Canada when I was a baby. We were refugees. She was grateful to be here, but she was still a young mother with a new baby and felt scared and alone in this new place.

This is where The Teresa Group entered our lives. The SickKids Hospital clinic sent us there, telling my mother that she would be able to find help and friends. She started coming to a support group with other moms every month. The women she met here are still her best friends. They lifted her up and supported her when she needed it, and eventually she was able to do the same for them.

I think I was around five when I start to have memories of coming in to The Teresa Group, nothing solid, but I can picture the space and the toys, the faces happy to see me. I still didn't understand anything, but I knew when we came to that building, I was going to have some fun. I went to my first group when I was 7, of course I didn't really know it was group, it was just a fun thing I got to do on Saturdays. Looking back now, I can see all the sneaky therapy type things we did. Learning how to recognize and express our emotions, understanding our friends' emotions, how to be a good friend, teamwork – all hidden in games and activities. Very sneaky.

When I was 12, my mom told me about this

thing that had been a huge part of my life without me knowing it. We were both HIV positive. My mind was blown, but I felt kind of dumb too. How did I not already know this? I had been taking medication all of my life, why didn't I ask more questions about why? Why hadn't I found it weird that we both take pills every day? Then, I started to see how she had been preparing me for this. I didn't need to ask her what HIV was, because we had talked about it before. I knew about how medications had changed, and people lived long lives with HIV, I understood stigma (as much as a 12-year-old can), my mom had been laying the ground for this conversation for over a year.

She told me later that The Teresa Group was a place we went to because they support families with HIV. It was her social worker there who had been the one to help her through telling me and preparing her to be ready for any kind of reaction (apparently tweens are unpredictable, who knew). It took a little while for us to find our footing again, but my mom and I are a team, and we got there.

What now though? I still had a lot of feelings I wasn't quite sure what to do with, and I really wasn't sure I wanted to tell anyone what I had learned. Once again, The Teresa Group stepped in to help me through. That summer I attended my first Summer Camp, and later on I attended the "Leading the Way" groups. Meeting other kids my age going through the same thing was such a big first step to accepting this news.

Six years later, I am thankful every day that The Teresa Group was there for me and my mom. It scares me a bit to think about how we would have gotten through if they hadn't been there. I know we wouldn't have our incredible extended family and this incredible safe place that welcomed us so long ago.

## Fabulosa!

The story of Polari, Britain's secret gay Language

By Paul Baker

ISBN: 978-1-78914-132-0

320pgs

My first exposure to the language was during a documentary being shown at Harbourfront about the work of Bruce Eves. My first reaction was Pol what?

At that time I knew nothing of its history or how it was correctly used. I did know that from the 1940s to the mid- 1970s that being gay was nowhere near as open as the Toronto of the late 1980s. During that time you could still be arrested or hospitalized.

The book takes you on a journey that looks at the language's roots and where it was most widely spoken. I can see why it was created since it was a way to communicate with others and if you were lucky, get laid.

As to its decline in use is mainly down to the 1967 decriminalization of Homosexuality and frankly Ageism. Thanks to the author's work the language has seen a resurgence to such a point that a chapter of the Sisters of Perpetual Indulgence translating the Bible into High Polari.

I highly doubt that you will be hearing Polari in Canada anytime soon. It would be rather funny if we did. Imagine being told the following: I had be vies at the Bird where all the butch omees were either on their Polari pipes or ogled the vardavision to see seaweed nosh or clean the kitchen.

I highly recommend the book.

# THE FUNNY SIDE OF LIFE

A LITTLE HUMOR TO START THE DAY

## A PRIEST'S RETIREMENT DINNER

A Priest was being honored with a retirement dinner after 25 years in the parish.

A leading local politician and member of the congregation was chosen to make the presentation and to give a little speech at the dinner.

However, he was delayed, so the Priest decided to say his own few words while they waited:

'I got my first impression of the parish from the first confession I heard here. I thought I had been assigned to a terrible place. The very first person who entered my confessional told me he had stolen a television set and, when questioned by the police, was able to lie his way out of it. He had stolen money from his parents, embezzled from his employer, had an affair with his boss's wife, taken illegal drugs, and gave VD to his sister. I was appalled. But as the days went on I learned that you people were not all like that, and I had, indeed, come to a fine parish full of good and loving people.'

Just as the Priest finished his talk, the politician arrived full of apologies at being late. He immediately began to make the presentation and gave his talk:

'I'll never forget the first day our parish Priest arrived", said the politician." In fact, I had the honor of being the first person to go to him for confession."
